ANNUAL MEETING ITEMS

Call to Order: The Statutory Annual Meeting was called to order at 5:30 p.m.
Presentation Regarding the Status of the Public Infrastructure Projects Within the Districts: Loren Moreland discussed the development in the districts.

RECORD OF PROCEEDINGS

Outstanding Bonds: Loren Moreland discussed the outstanding bonds and developer advance debt.

Unaudited Financial Statements: Mr. Le Roux reviewed the Unaudited Financial Statements. Questions asked below.

Open Floor for Questions:

Was the mill levy decrease due to the refinance of District No. 2? Mr. Le Roux noted the lack of a property tax bill decrease is due to increased assessed values on properties in the District.

Was inflation being accounted for in future capital projects as budgeted? Mr. Le Roux noted the bond project fund will not cover all costs associated with the public improvement capital projects and Developer funding will be needed to cover the shortfall.

Director Bart discussed the future consideration that the mills be adjusted down as debt payments are covered. Discussion ensued regarding bond payments and path to paying off the debt and decreasing the mills.

What are “other superstructures”? Mr. Le Roux noted this includes projects further down the line and are not a priority, such as Banning Lewis Parkway and Briargate connection, the Sand Creek channel improvements, etc.

Discussion ensued regarding EMMA and EDARP as tools to view and see development documents and plans to community by development.

Question as to debt interest and reserve funds. Mr. Le Roux noted interest rates are a consideration whenever refinancing makes sense for districts. The reserve funds are used for the final payments on debt.

Consultants were prepared to give presentations required by Statute. No Public was in attendance.

ADJOURNMENT

There being no further business at this time, the Statutory Annual Meeting was adjourned at 7:15 p.m.

Respectfully submitted,
